1

## CHECKOUT LINE MANAGEMENT

Avoid queuing at the register and optimize your workforce management

- Increase Customer satisfaction
- Use AI to predict rush hour
- Semi,- and fully automatic solution

2

## SHOP ACCESS CONTROL SYSTEM

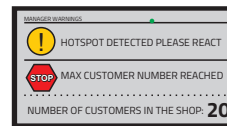

The access is managed automatically by a signal or monitor

### PERSONALIZED ADVERTS

Instead of listing articles on „SALE“, promote the ones by „Advertisement“

3

## SHOP FLOW MANAGEMENT IN REALTIME

Overview via Dashboard for the employees in real time to react or prevent immediately

### YOUR FTF LIFE DASHBOARD

- Customer analytics
- Forecasts with predictive analytic
- Hotspot zones
- Measuring the efficiency of adverts or marketing actions
- Recognition of recurring clients

4

## MOBILE APP

With an integration to your existing App, your registered clients gain access to the actual situation in their frequented shop

- During rush hours, we can offer alternative locations
- Clients can optimise their shopping time depending on the actual number of visitors
